

A man with glasses and a white lab coat is working at a wooden desk. He is using a yellow tool to work on a piece of light-colored material on a blue mat. The desk is cluttered with various tools including a ruler, compass, and scissors. In the background, there is a wall with a colorful terrazzo pattern and the word 'Féoni' written in a large, black, handwritten font. A white text box is overlaid on the image, containing the text 'TRAINING LEATHER GOODS SUMMER 2018' and 'FROM 16 TO 19 JULY 2018 OR 6 TO 9 AUGUST 2018'.

Dimension : 18 cm of width / 17 cm of heigh / depth 5,5 cm

MANUFACTURING OF A HIGH-END LEATHER BAG WAY SELLIER

Duration: 32 hours (4.5 days)

Learning a trade and expertise sought / This advanced training allows you to design yourself a high-end leather bag, according to the techniques of French leather goods. The first module will enable you to test yourself and learn the editing techniques, the saddle stitch, and the finishing work. You will handle leather of high quality as well as the tools of the leatherworker. The second module immerses you in the manufacture of a high-end bag. You will put into action the techniques learned in the first module and will leave with your first realization. Learning and use of machines. Your model of bag is customizable: a choice between two colors of leather, choice of dyes of the slices and threads. Initials offered.

WHO SHOULD ATTEND?
